

# Human Trafficking 201

## Participants will:

- ✧ Learn to identify signs of human trafficking
- ✧ Apply appropriate responses and practical skills related to trafficking
- ✧ Utilize tools to develop and implement screening policies
- ✧ Be familiarized with local resources in order to make referrals and build professional relationships

By the end of the training, participants will have a higher level of understanding of sex and labor trafficking (i.e. general overview, dynamics, red flags). This training seminar builds on knowledge gleaned from our annual HT101 training and focuses more deeply on screening for trafficking and appropriate responses for victims. If you haven't attended our HT101 Training, we encourage you to review this free [webinar](#) as a requisite to attending HT201.

HT201 is presented by the Philadelphia Anti-Trafficking Coalition, Training & Communications Subcommittee
